

# 3DPrint@CU

An introduction to 3D-modeling with **Jeffrey Lancaster**, Emerging Technologies Coordinator for CU libraries. Learn to use OpenSCAD to design 3D models and print them at Columbia for free!

**Mon March 24 // 8pm – 9pm // Hamilton 304**

## 3D Printing High Performance Textiles

Want learn more about 3D printing? Interested in design or fashion? Come to join us to take a look into the techniques & processes of generating high-performance textiles utilizing 3D printing as the primary method of fabrication. The session will introduce the most recent prototypes & the computational processes of digital weaving & fractal interlocking.

Speaker: **Bradley Rothenberg**, creator of the Victoria's Secret 'Snow Queen' 3D Print

Pizza will be provided.

**Tues March 25 // 8pm – 10pm // Davis Auditorium**

Brought to you by **ADI**
